Jun 30, 2022 Version 9.10.5 Bug fixes and performance improvements It is hard to remember any problems IcĀĀĀve had with the app during a prior session, and I submit that the review opportunity should pop up after each use, rather than when someone starts using the app. I think that would help in identifying useful problems, issues and praises for the app. It is somewhat difficult and frustrating to bring up previous notes one has made. I make a lot of notes with scriptures which I need to review and further consider at a later point. But I cancĀĀĀt always find them! However, after further use, itcĀĀĀs pretty easy. Secondly, it is also difficult to remove a bible study plan that shows four times under the list of selected plans. I think I finally found out last night, but let's see... Third, I like the app a lot, including the daily Bible verses and the opportunity to create an image with the verse, or even use the photos themselves! That's fun! On the side of the Bible study, I love the ability to turn from one version of the Bible to another with great ease, keeping with the passage in which you are currently focused. I use this option more! It is also easy to find a verse that is looking for, or Bible chapters. I like and appreciate this app. Thank you for including such useful and creative options. In addition, thank you for presenting the review and entry option, which I trust you to read and take measures on those that you can identify as good for the application. Thank you for your time and consideration of the above matters. I love the Bible app. It is remarkably one of the most useful apps I have. It is super affordable, especially when you are so busy that you forget to read your Bible or spend some devotional time. I love the reminders of daily verses, the countless ways we can keep track of our reading, the beautiful options to make verse images. There is even an option to write prayers, and you can choose to make it private or public with friends. In the bustle of daily life, I am able to bring down a fast prayer and does not mean much at the moment, but months or weeks later I look back at it and realize exactly how impactful it was. Because it is so easy to write a simple and quick prayer in the app, which helps with practicality: you can pray about it immediately. And that prayer changes many things. I am grateful for all the Bible application plans; there are many options, short and long. I especially love the chronological and canonical reading plans. I love that odal odal o odot me soĀĀsirc serodagerp e satsitra soĀĀum moc arobaloc ailbĀB ad even the world, and is able to make their voice, their teachings, and their wisdom accessible to the multitudes like me. Overall, an amazing app!Edit: lately therecĀĀĀs been trouble with bookmarking. The app doesncĀĀĀt seem to stick to what you read last time, and it is difficult to keep track of what you read. I hope they fix this. Perhaps it is just on my end. This app has been life changing for me. It helps me connect with God and the Word. There is a daily scripture and video that helps you apply the scripture of the day. You can search reading plans based on emotions or topics or anything. You can also search for specific scriptures based on the words you remember and look by book or sang related scripture. You can do reading plans alone, invite others to join you or make it private so no one knows the current plan you are reading. This app has helped many through many chapters in my life and I continue to use it weekly and daily. I searched for reading plans when I lost a job, was preparing for marriage and nor that I have been going through parenthood. I am so grateful for the technology that this app provides for me to see what GodeĀĀĀs Word says about anything. This app offers the Bible in many languages that continue to grow and many versions of the bible. You can compare a verse with other versions to get a better understanding, make a note about it, share it with others through social media, other apps, email or text. You can make images with a verse or several and share it that way or make an album of photos in your phone with the scriptures you need to focus on at this point in your life. I use the app on my phone and iPad and I am so grateful to the developers for making this amazing app and continue to make it better through th years! Thank you so much!
