Recent statistics suggest that, of the 7.9 billion people on the planet, roughly 6.4 billion of them are mobile phone users . Moreover, the average person spends almost four hours per day on their phone, and more than half of all mobile phone users say they can't do without them. These numbers attest to the revenue potential and the reach of the market for mobile software development solutions. In the race for superiority and a more significant market share, however, quality ultimately trumps quantity. So, it's not surprising that the demand for mobile QA tester professionals have increased substantially. If you have the skills and the interest in working on challenging and exciting projects, in an excellent working environment, with professional and engaged colleagues, then our mobile testing jobs are the right fit for you. Core skills of mobile application testing jobs QA mobile testing can be described as the process of running tests on specific properties of a mobile application, such as its consistency, usability, and functionality, to ensure its successful performance when released to end users. The core skills required of a mobile QA tester include:Demonstrated knowledge of test automation approachesProven experience using IOS test automation toolsCompetence with mobile development and building tools like Android SDK and XcodeProficiency with Android test automation toolsBackground in manual mobile testingSkilled at mobile web test automationFamiliarity with Android and IOS application prototypingExperience with mobile applications performance testingKnowledge of code standards and code review processSoft skills Candidates for application testing jobs should also have: Excellent communication skillsSignificant resistance to stressWillingness to be a team playerSkills in the visual representation of informationSuperior decision-making abilitiesA well-developed sense of responsibilityCapacity to self-motivateResponsibilities of Automated and Manual Mobile App Testing experts Candidates for mobile testing jobs should expect to have the following responsibilities:Writing test scripts for mobile applicationsMonitoring mobile applications throughout their life cycles Fixing bugs and errors in mobile software applicationsConducting usability and functional testsEffectively communicating with your teamMentoring less experienced manual mobile testing teammatesBenefits of Mobile App Testing jobs at EPAM Anywhere So, what are the benefits of mobile app testing jobs at EPAM Anywhere? With so many QA mobile testing vacancies out there, it can be challenging to know which company is the right fit for you. Offering a range of benefits and opportunities, EPAM Anywhere is attractive to mobile QA testers and other IT professionals. If this catches your interest, you will be happy to know that the perks of being an EPAMer include:Competitive wagesVaried career growth opportunitiesHealthcare benefitsCompetitive wages We are well aware of the importance of generous wages. We make it a point to compensate EPAMers with some of the most competitive salary rates in the industry. If you are looking for mobile app testing jobs that offer you consistently competitive wages and opportunities , then EPAM Anywhere is the place to be. Career growth opportunities As with other IT positions,the key to excellence for a mobile QA tester is their accumulated experience. At EPAM Anywhere, our varied and extensive range of opportunities offers you many options for hands-on experience that will enhance and support your career growth. Moreover, we provide industry-recognized certificate programs and a wealth of educational and training materials to choose from. The mobile app testing jobs at EPAM Anywhere will help you take your career to the next level. Healthcare benefits In addition to the other available perks, the importance of access to necessary healthcare cannot be overstated. You will be pleased to know that our mobile application testing job vacancies come with location-specific healthcare that you don't want to pass up. It should be clear by now that very few other QA mobile testing vacancies can compete with the broad range of benefits we offer. So why not take the initiative and become part of a winning team? Mobile App Testing helps companies and platforms identify and resolve bugs and issues with their application before it is released to the consumers. This could help with brand reputation tremendously, and ensure that your product/service is rolled out in the proper fashion.This relationship is essential to both the developer and consumer, and ensures that the best possible application is released. Considering that there are billions of smartphones in the world, and that mobile apps generate hundreds of billions of dollars; this is quite an important sector for modern times. This includes making sure that memory is preserved, speed is preserved, and that security is ensured for the user. The sector is increasingly relevant considering that the diversity of devices is constantly expanding.We all know that there are billions of smartphones users in the world, and that smartphone technology, in some parts of the world, is easier to find that clean water! Mobile app testing helps ensure the functionality and usability of this technology, so that users can access the data and content that they require for their personal and professional advancement. It is an especially important sector, considering that the mobile app market is worth billions of dollars, and is expected to grow exponentially in the future, as well. From 61241 reviews, clients rate our Mobile App Testers 4.82 out of 5 stars. Learn more I am a researcher in telehealth and would like to find someone from the Emirates who is willing to test local telehealth apps (TruDoc, okadoc, Health at Hand, Housecall, altitbbi, healthigo, drfive) with a local phone number/ ID number. You should also have at least one of the insurances policy number to record their app: NextCare/Mednet/Oman/NAS or Aster1 clinics app. You should download the app, register yourself, have a meeting with me, navigate inside the app, record the functionalities and then send me the recordings. Hi there, I need a professional android developer for my partner project. I really mean a professional android developer as the project is BIG enough and COMPLEX. Please bid if you are really want to work for a full time and long time basis. Note : ===== 1. You need to work on GMT+6 Timezone (No exception). 2. You need to be a professional android developer. 3. No milestone will be paid for the first task until I see your first full work. 4. I will hire you once I added to a whatsapp group and get a estimation for the first task. Agree? Write "I Agreed" in your BID. Regards. Will need tester to do complete mobile app testing across different android devices. Full functional testing and integrated testing. Must also be able to test backend application to ensure backend is working correctly and supports mobile app. Must create proper test scenarios, test cases and test data. Capture test results and articulate clearly what the issue is 1. testi Will need tester to do complete mobile app testing across different android devices. Full functional testing and integrated testing. Must also be able to test backend application to ensure backend is working correctly and supports mobile app. Must create proper test scenarios, test cases and test data. Capture test results and articulate clearly what the issue is 1. Must be able to test on multiple devises 2. Clearly articulate capability for full functional / application testing 3. Should be able to explain how Testing time and requirements would be estimated 4. Must have experience with manual testing 5. Must be able to clearly estimate time required and complete the testing within the given time frame Open to both fix bid for testing or hourly rate - (maximum is INR 225.00 and must ... Projektet handlar om en app som fungerar både i i IOS och i Android. En första sida med 5 klickbara ikoner som i sin tur leder till olika undermenyer. Mest text. Jag vill att appen skall vara tillgänglgit i olika språk, jag får källnoderna, kan få support för att utveckla mer. Stöd med att lägga ut appen i playbutik / store. Jag kommer att skapa flera apper om jobbet går bra. La problemática que aborda mi negocio es que los estudiantes de Medicina, Enfermería y otras carreras del área de la Salud no cuentan con herramientas tecnológicas para enfrentar de forma organizada y eficiente su etapa de Internados o Prácticas Clínicas. El 97% de los estudiantes de Medicina aún organiza sus registros clínicos (Ej: Fichas Clínicas) en libretas de papel, mientras que el 3% de los estudiantes está comenzando a implementar alguna manera digital de llevar sus registros. "La Interna App" soluciona este problema con una Aplicación para iOS y Android que permite crear registros clínicos ordenados, completos y fáciles de exportar. Además, cuenta con ayudamemorias y otras herr... It's free to sign up, type in what you need & receive free quotes in seconds
