All comes down to the extra bit of measurement and width designed into the shoe to ensure optimal fit for a fuller foot. Kids' shoes, like adult shoes, should feel secure without being too constricting. Just like regular width shoes, wide shoes should fit comfortably snug without being too tight. With apparel options that grow with your child from crib to toddler, little kid and big kid's apparel needs are covered with performance gear that wicks sweat, keeps them warm, reduces chafing, outlasts even the longest days of play and, of course, stays true to their style whatever that might be. The answer: Mississippi.CCO/coparisienne/Pixabay Water This one will make you groan when you hear the answer, but it's full of holes but still holds water. If you guessed the answer is a sponge, you are correct.CCO/ronymichaud/Pixabay Geography This one's pretty good, and it's take some thinking to come up with the answer: It's have streets but no pavement. Choose from our collection of wide-width lacrosse, soccer or tennis shoes. Our wide-width collection will ensure that no matter what they love doing, their fit will be perfect! How can we tell if your child needs wide shoes? Seeking the perfect fit for your child? You can even snatch up the coziest pair of double walking shoes, too. New Balance is proud to provide a large variety of kids' shoes in nearly every category from infant to grade school sizes. At New Balance, we offer shoes designed with about 2 widths extra for children who have fuller feet. Entry into the shoe should be seamless and pain-free and offer optimal comfort that's never constricting, too snug, or leave too much wiggle-room. What type of wide shoes does New Balance offer for kids? And of course, we offer this without ever sacrificing the fun looks, graphics and features that your kids will want to wear. The best part?
